

My favourite song

Title/Band: *Superhero* by Viki Gabor

Reviewer: Dominika Naczka

Review: This pop song is amazing! It's catchy and it's got good beat. This song is good one for dancing too. The lyrics are all about saving planet. The song starts off with Viki's incredible voice and some great instruments, and it gets better and better. The song rocks!

Viki sang this song on Junior Eurovision Song Contest 2019 in Poland and she won it! It was second in a row Poland's win on JESC. Poland is first country who did it.

During performance we could see primarily blue backdrop in colour as we see images of the Earth's landscapes, such as the ice caps melting into the ocean. On the music video we can see different landscapes and beautiful vegetation. This is, of course, to enforce her message of saving the planet.

This song is just incredible and it's got an important message.
